DIGITIZATION SOLUTIONS

INDUSTRY- LEADING IMAGING HARDWARE

DT Heritage is America's leading designer and manufacturer of digitization solutions for our nation's libraries, museums, and cultural institutions. Using cutting-edge technology to preserve our shared heritage, we provide turnkey digitization solutions with advanced reprographic copy stands, revolutionary camera platforms, and sophisticated automation software. Our team comprises over a century of collective expertise and brings together the industry's top talent.

DT Atom – Full Length

DT ATOM

Compact. Flexible. Portable

The DT Atom is a table-top digitization platform that can adapt to nearly any material type. All DT products are modular and the DT Atom is no exception, with most of its adaptability owed to its removable table top.

We call the DT Atom the “building block of digitization.” Simply swap out the standard reflective top for one of our seven accessory tops, to handle books, loose material, film, glass plates, textiles, maps, and more. Nearly anything in an encyclopedic collection can be scanned on a DT Atom.
